## PROFESSIONAL SUMMARY

Dynamic full-stack web developer with knowledge in a variety of current technologies. Passionate for continued learning and problem solving. Eager to support your development team with prime code and elegant solutions.

## SKILLS

- JavaScript
- HTML
- CSS
- Bootstrap
- C#/.Net
- MySQL
- Node.js
- Vue.js
- Express.js
- Scrum
- MongoDB
- Mongoose

## APPLICATIONS

Kanvan: This is a large project manager. It allows users to create, and manage various tasks by moving them between lists. Technologies and practices used include scrum, Vue.js for front-end, Node.js for backend, Auth0 to handle secure login, MongoDB and Mongoose for the database, and we deployed through heroku. We partner programmed the entire application and split evenly who was driving and who was navigating.

Curb-Side: This is a go between for businesses and clients, allowing orders to be placed before hand, then paid for and picked up at the businesses' curb. Businesses can create their entire catalogue in our system, and all the customer has to do is add to their cart and place the order. We coded mobile first using the MEVN stack, Auth0 and heroku. I participated in developing all of the back-end and the business UI of the front end.

## WORK EXPERIENCE

### Software Development Student, Code Works

11/2020 - Present

- Partner programmed regularly to build robust applications and experience working with a variety of peers
- Built dozens of applications utilizing the many technologies listed in skills
- Implemented scrum practices regularly to manage complicated projects
- Learned and practiced good coding principles, from using a linter on JavaScript, following SOLID principles, and material design, to maintaining RESTful conventions on the back-end

### Seasonal Field Technician, Ada County Mosquito Abatement (Personnel Plus)

03/2020 - 10/2020

03/2019 - 08/2018

- Maintained the mosquito population in order to prevent the West Nile Virus from infecting Ada County residents by making pesticide applications, remediating potential breeding grounds, and educating the public about mosquitos
- Responded to requests and complaints from Ada County residents about mosquito activity, investigated and resolved concerns, and documented findings and actions

### Temporary Laborer, Ada County Highway District (Personnel Plus)

10/2019 - 01/2020

06/2017 - 02/2018

- Collaborated with dozens of people in a fast paced, and dangerous environment to effectively perform chip-seal and crack-seal maintenance on more than a thousand miles of roads
- Adhered to strict safety and environmental regulations, and performed routine maintenance on all assigned equipment

## EDUCATION & LICENSES

### Boise CodeWorks (2021)

Full-Stack Software development  
-certificate of completion

### Professional Pesticide Applicator

- Laws and Safety & Public Health
